MEMORANDUM FOR THE RECORD

25X1A

SUBJECT: Meeting with [REDACTED] on Stellar Data Reduction

1. Meeting was held on 1 August 1963 with the following persons attending:

25X1A [REDACTED]

2. The purpose of the meeting was to discuss the following:

- a. What is suspected as improper measuring procedures by AMS on Mission 9054.
- b. Computer rerun of Mission 9053.
- c. Changes in format plus logistics pertinent to distribution of reduction.

25X1A

25X1A

3. On Mission 9054 [REDACTED] stated that AMS was not measuring the fiducial marks properly and that some measurements showed what was suspicioned as operator hanky-panky. At the completion of the meeting

25X1A

[REDACTED] accompanied by [REDACTED] of OCE Army, [REDACTED] went to AMS. By telephone conversation on 2 August 1963 [REDACTED] informed [REDACTED] that he had had a fruitful meeting with AMS and furthermore, that he will document his discussion for our record and for [REDACTED] contract records.

25X1A

25X1A

4. Because of the third camera calibration matrix change (see TAB memo 62/63) it was requested that [REDACTED] make a computer rerun with the final and supposedly correct matrix. [REDACTED] was informed of this and concurred.

25X1A

25X1A 5. [REDACTED] commencing with Mission 9057, will give NPIC, three hard copies and card decks for the attitude of the vehicle and the attitude of both the FWD and AFT panoramic cameras.

- a. Format of vehicle
Frame N², yaw, pitch, roll as 0° - 00'.0
- b. Format of Panoramic cameras
Frame N², yaw, pitch (FWD), pitch (AFT),
roll as 0° - 00'.0

TID/TAB-63/63
Page two

It will be necessary to forward the calibrated angle between the two panoramic cameras as part of the data forwarded to [REDACTED] to reduce the stellar exposures.

25X1A

6. All information pertinent to the [REDACTED] contract to be classified "Special Handling".

25X1A

7. It was requested that [REDACTED] keep a file of all pertinent data so that they can reprocess a mission if changes occur that may require reruns.
